Name of the business

Address

Name of the contact person

Telephone

Email

Number of the agricultural operation/
VVVO or similar number

Certification of the business

Non GMO Piglet production since:

PART 2: ANIMAL INVENTORY

1. Animals on the farm

Animal category	Animal spaces/number of animals	Thereof non-GMO production (in %)
Sows		
Weaned piglets		
Fattening pigs		

2. Measures to prevent mixing up or swapping animals

2.1 How is non-GMO (ohne Gentechnik) piglet production handled in your facility?

Only non-GMO products on site (no GMO feed on site)

Spatially separated from conventional (GMO) production (non-GMO stalls are completely separate)

Separated in time from conventional production (stalls are alternately used for non-GMO and GMO production)

Parallel production in the same stall (same animal category, e.g., weaned piglets) utilising both non-GMO and GMO feed in the same stall)
