## Explanations for the VLOG Incident Sheet

### 1. What are “incidents” within the meaning of the VLOG Standard?

“Incidents” are scenarios in which non-VLOG-compliant food is placed on the market as “VLOG” or with the “Ohne GenTechnik” seal, the reputation of VLOG is at risk or the VLOG system is otherwise jeopardised.

The following situations are particularly relevant in the areas of food processing and logistics as well as retail:

- Food that does not meet the requirements of the EC Genetic Engineering Implementation Act<sup>1</sup> was marketed as “VLOG” or with the “Ohne GenTechnik” seal
- Food containing GMOs that are not approved in the EU was marketed as “VLOG” or with the “Ohne GenTechnik” seal<sup>2</sup>
- Reasonable suspicion that a business is engaging in non- VLOG-compliant production, (alleged) cases of fraud in the VLOG system (including fraud by business partners or third parties...)
- Public criticism of the business’s VLOG production (media inquiries, press reports, articles, etc.)

Regarding communication with media concerning VLOG certification and/or the use of the "Ohne GenTechnik" seal and/or "VLOG geprüft" seal, VLOG must be informed in advance or at least parallel to publication. We will be pleased to advise you and coordinate the communication with the media/third parties with you.

### 2. How should incidents be reported to VLOG?

Certified businesses must notify VLOG about any incidents. All cases should be reported, even if the business is uncertain whether a situation represents an incident or not. All VLOG-certified businesses that are affected by or become aware of an incident (suppliers/customers/farmers/manufacturers, etc.) must report it to VLOG.

In this case, each business has to fill out a separate incident sheet, but one incident sheet can be used for multiple locations of a single business.

The incident sheet must be clearly worded and fully filled out with all available data. The sheet must be sent to VLOG as soon as possible and within 2 working days at latest by email or fax following the occurrence of the incident:

- Email: [ereignisfall@ohnegentechnik.org](mailto:ereignisfall@ohnegentechnik.org)
- Fax: +49 30 2359 945 01

Changes/new findings (e.g. second test, results of root cause analysis) can be sent to VLOG at a later date (e.g. as a supplement to an Incident Sheet).

**As a general rule, the sooner a case is reported the better, even if the information is still incomplete.**

### 3. How can VLOG be reached if there is an incident?

- VLOG Head Office: +49 (0)30 2359 945 00 (during business hours)
- VLOG emergency number: +49 (0)30 2359 945 09 (when the office cannot be reached)

After the incident is reported, VLOG will assist you in managing the incident and any resulting crisis situations. The goal is to prevent damage to your facility, other system partners and the VLOG system.

<sup>1</sup> This includes, among others, any food that is subject to compulsory labeling as GMO pursuant to EU regulations 1829/2003 and 1830/2003; food with a GMO content > 0,1 % and any products of animal origin in which the statutory minimum feeding period was not complied with.

<sup>2</sup> The quantity of non-approved GMOs in the food is irrelevant.
